

Héctor Luis Ramírez González

+ 10 years of experience in the automotive industry in areas of service and engineering, for the execution of maintenance preventive & predictive, and thus be in optimal operating conditions the productive equipment and facilities.

» Knowledge in the following areas:

- Development of suppliers (Spare-parts & Services)
- Follow-up of ISO/TS 16949 & ISO 14001 audits NC's
- Use of Software MP9 (Maintenance Administration.)

Training Academic

Mechanical Engineer

ITA
1995 - 2000

Electro-Mechanical Technician

CBTis #17
1990 - 1993

Machine-Tools Technician

ESTi #5
1987 - 1990

Training Complementary

❖ SPECIFIC OBJETIVES :

- 1.- Development of plans of preventive maintenance & PdM, for production machinery \ MP9 SoftWare.
- 2.- Elaboration of instructions HRIE's for the self-maintenance of production equipments.
- 3.- Perform & Carry out preventive maintenance & PdM program.
- 4.- Track maintenance carried out; (Each machine repair history).
- 5.- Follow-up | Support for the activities of ISO/TS 16949 & ISO 14001 NC's audits.
- 6.- Failure analysis for evaluation and determination of the action plan together with process engineering.
- 7.- Processing high-retrofit / replenishment in the warehouse of spare parts.
- 8.- Search and request for quotation of spare parts required for the execution of maintenance in equipmenst.
- 9.- Fulfillment of the plan of the maintenance preventive & PdM, according to objectives.

❖ RESPONSABILITIES :

- 1.- Elaboration of programs of preventive maintenance & PdM for machinery & equipment production.
- 2.- Perform, Monitoring and updating the history of maintenance carried out in accordance with the comprehensive program.
- 3.- Perform graphical analysis to improve ongoing maintenance and repair activities.
- 4.- Inventory production equipment assigned to the process and/or projects.
- 5.- Generate the monthly report (QOS), for the, to the management , to take care of the fulfilment of the objectives of the Department
